DICK WALLACE Editor

JACK PURYEAR, Business Mgr.

NINETEEN THIRTY-SEVEN

Yamacraw

OWNED AND PUBLISHED BY
THE STUDENT BODY OF
OGLETHORPE UNIVERSITY

In Appreciation

For their freely given and long faithful service at Oglethorpe University—

We Dedicate

The 1937 Yamacraw to Dr. Herman J. Gaertner and Dr. George Frederick Nicolassen, the two oldest professors in the University. Much of the progress made by Oglethorpe has been accomplished through their efforts, and by this dedication we hope to express the sincerest appreciation for that period of their lives which they have given to us, the student body.

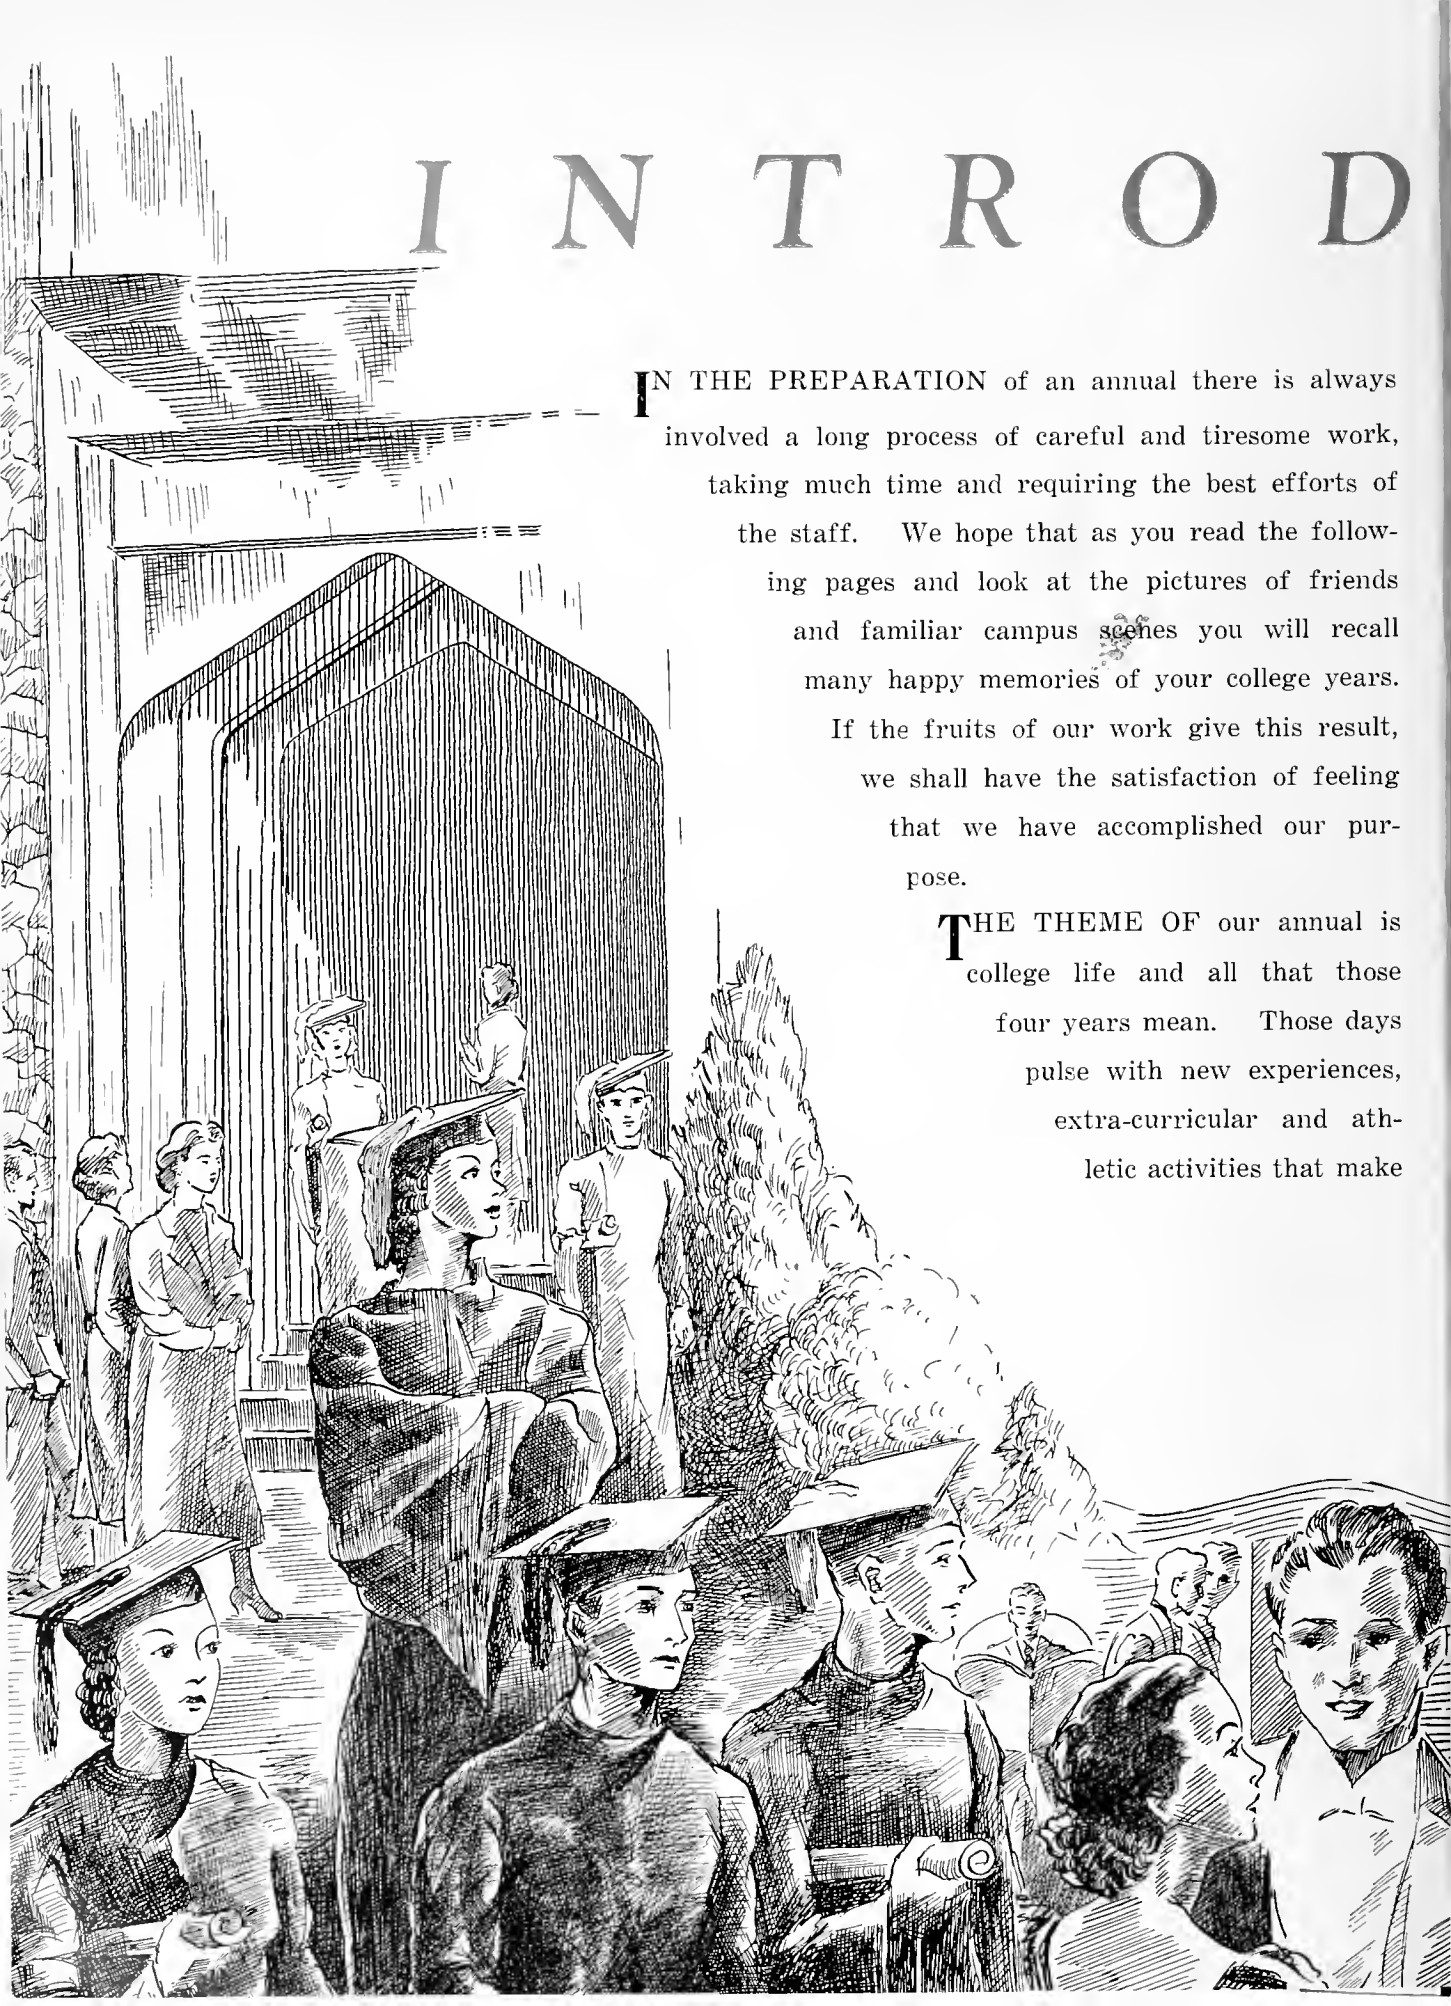

Dr. Herman J. Gaertner, assistant in the organization of Oglethorpe University in 1913.

Dr. Gaertner is the oldest faculty member and Dean of the School of Education and is director of Graduate School and Extension Department.

Dr. George Frederick Nicolassen, the next oldest professor on the campus.

He was a faculty member during the first graduating class of Oglethorpe, and has seen the students graduating from the class of '13 up through the class of '37. Dr. Nicolassen is Dean of the School of Liberal Arts.

I N T R O D

IN THE PREPARATION of an annual there is always involved a long process of careful and tiresome work, taking much time and requiring the best efforts of the staff. We hope that as you read the following pages and look at the pictures of friends and familiar campus scenes you will recall many happy memories of your college years. If the fruits of our work give this result, we shall have the satisfaction of feeling that we have accomplished our purpose.

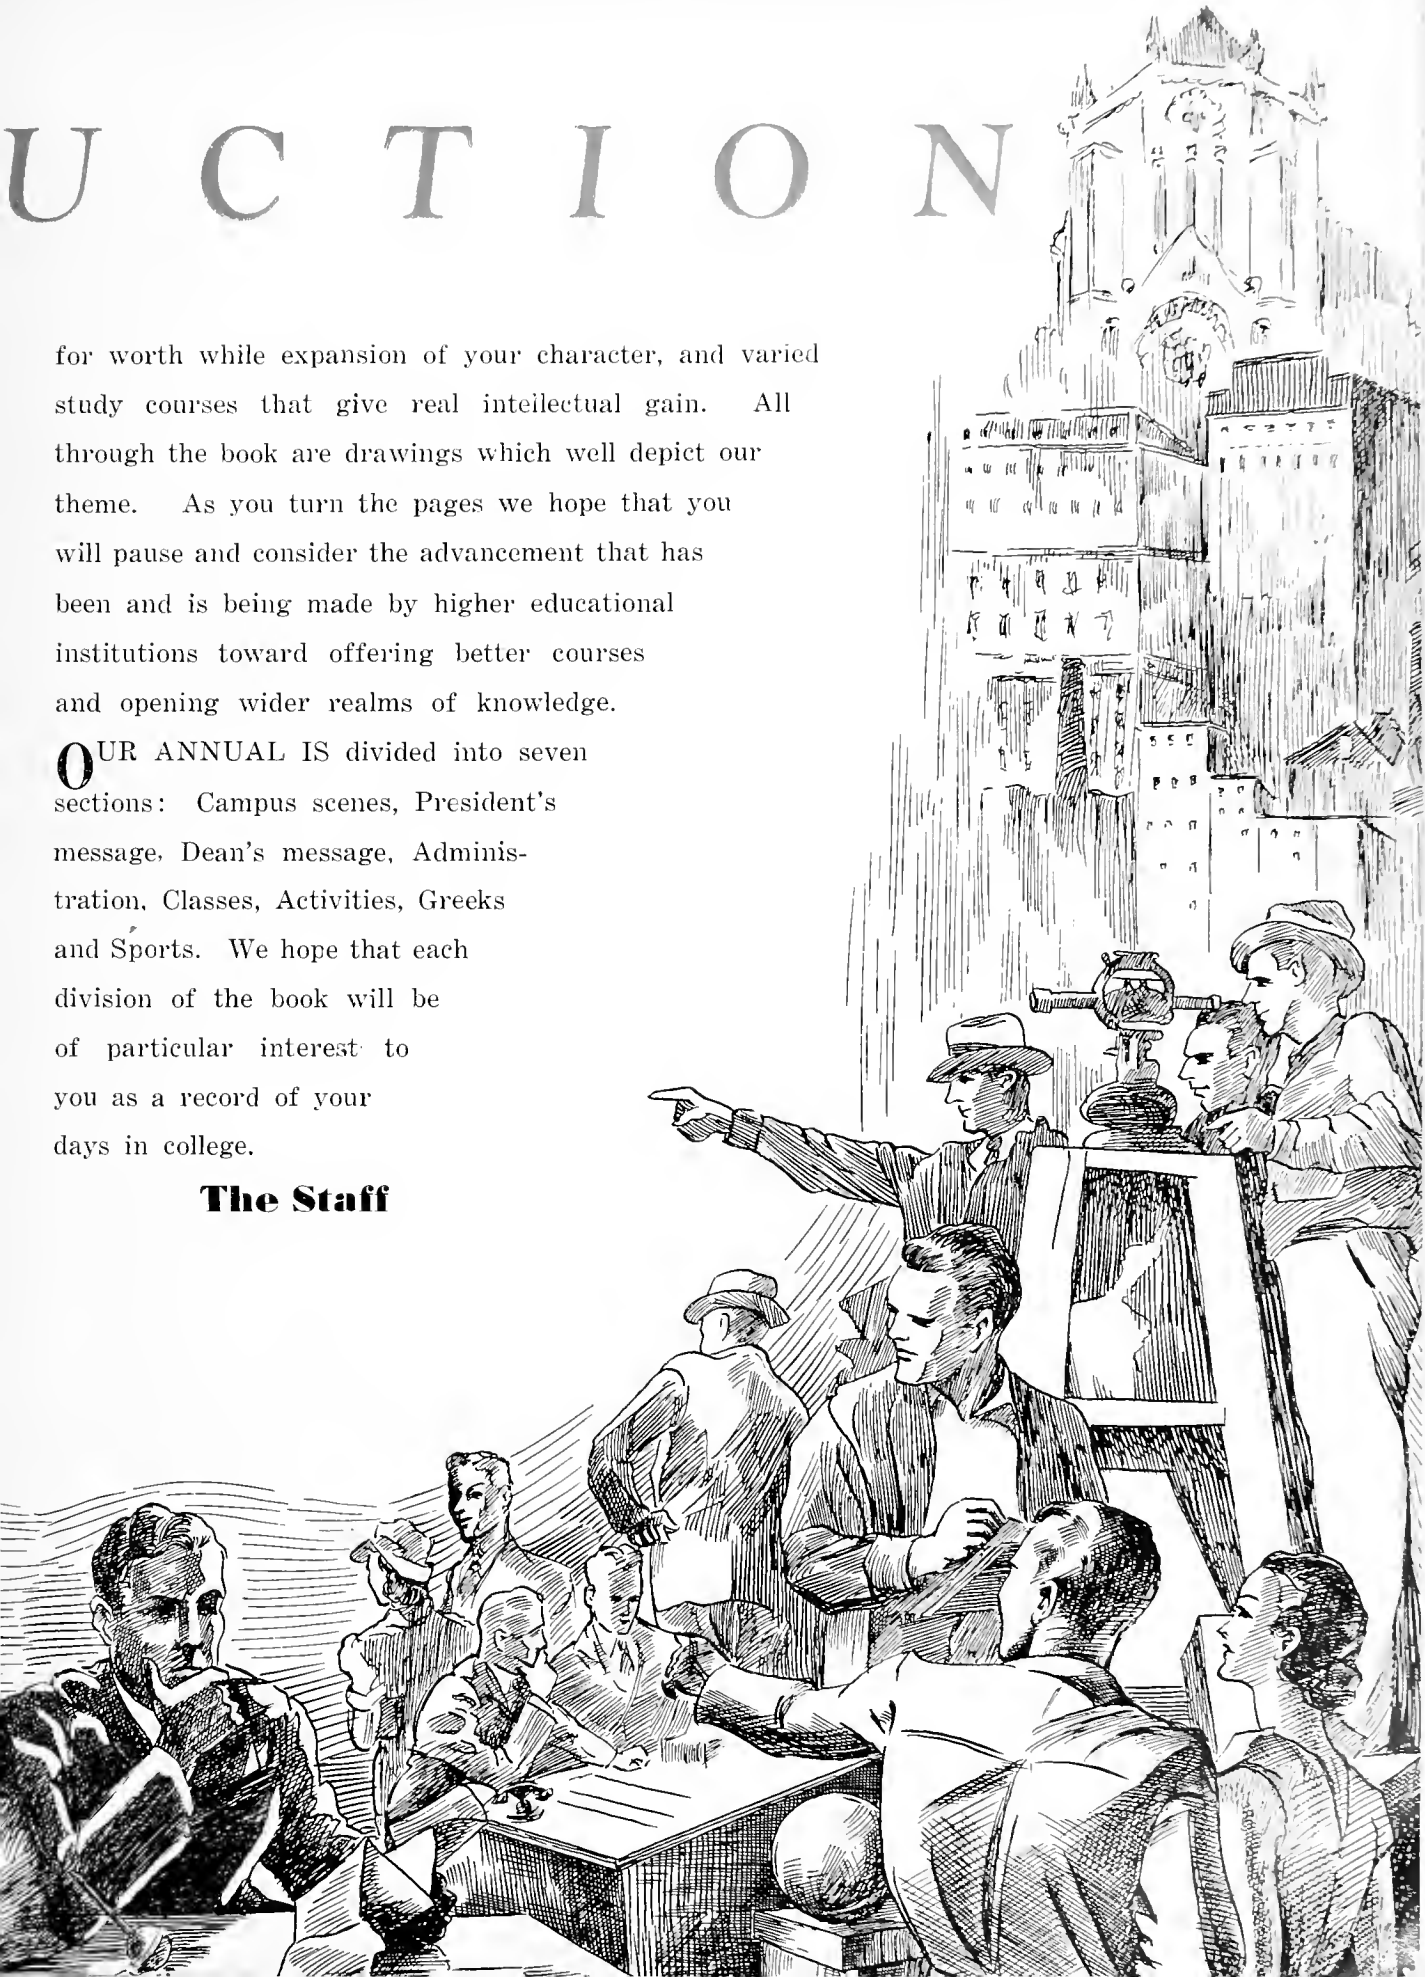

THE THEME OF our annual is college life and all that those four years mean. Those days pulse with new experiences, extra-curricular and athletic activities that make

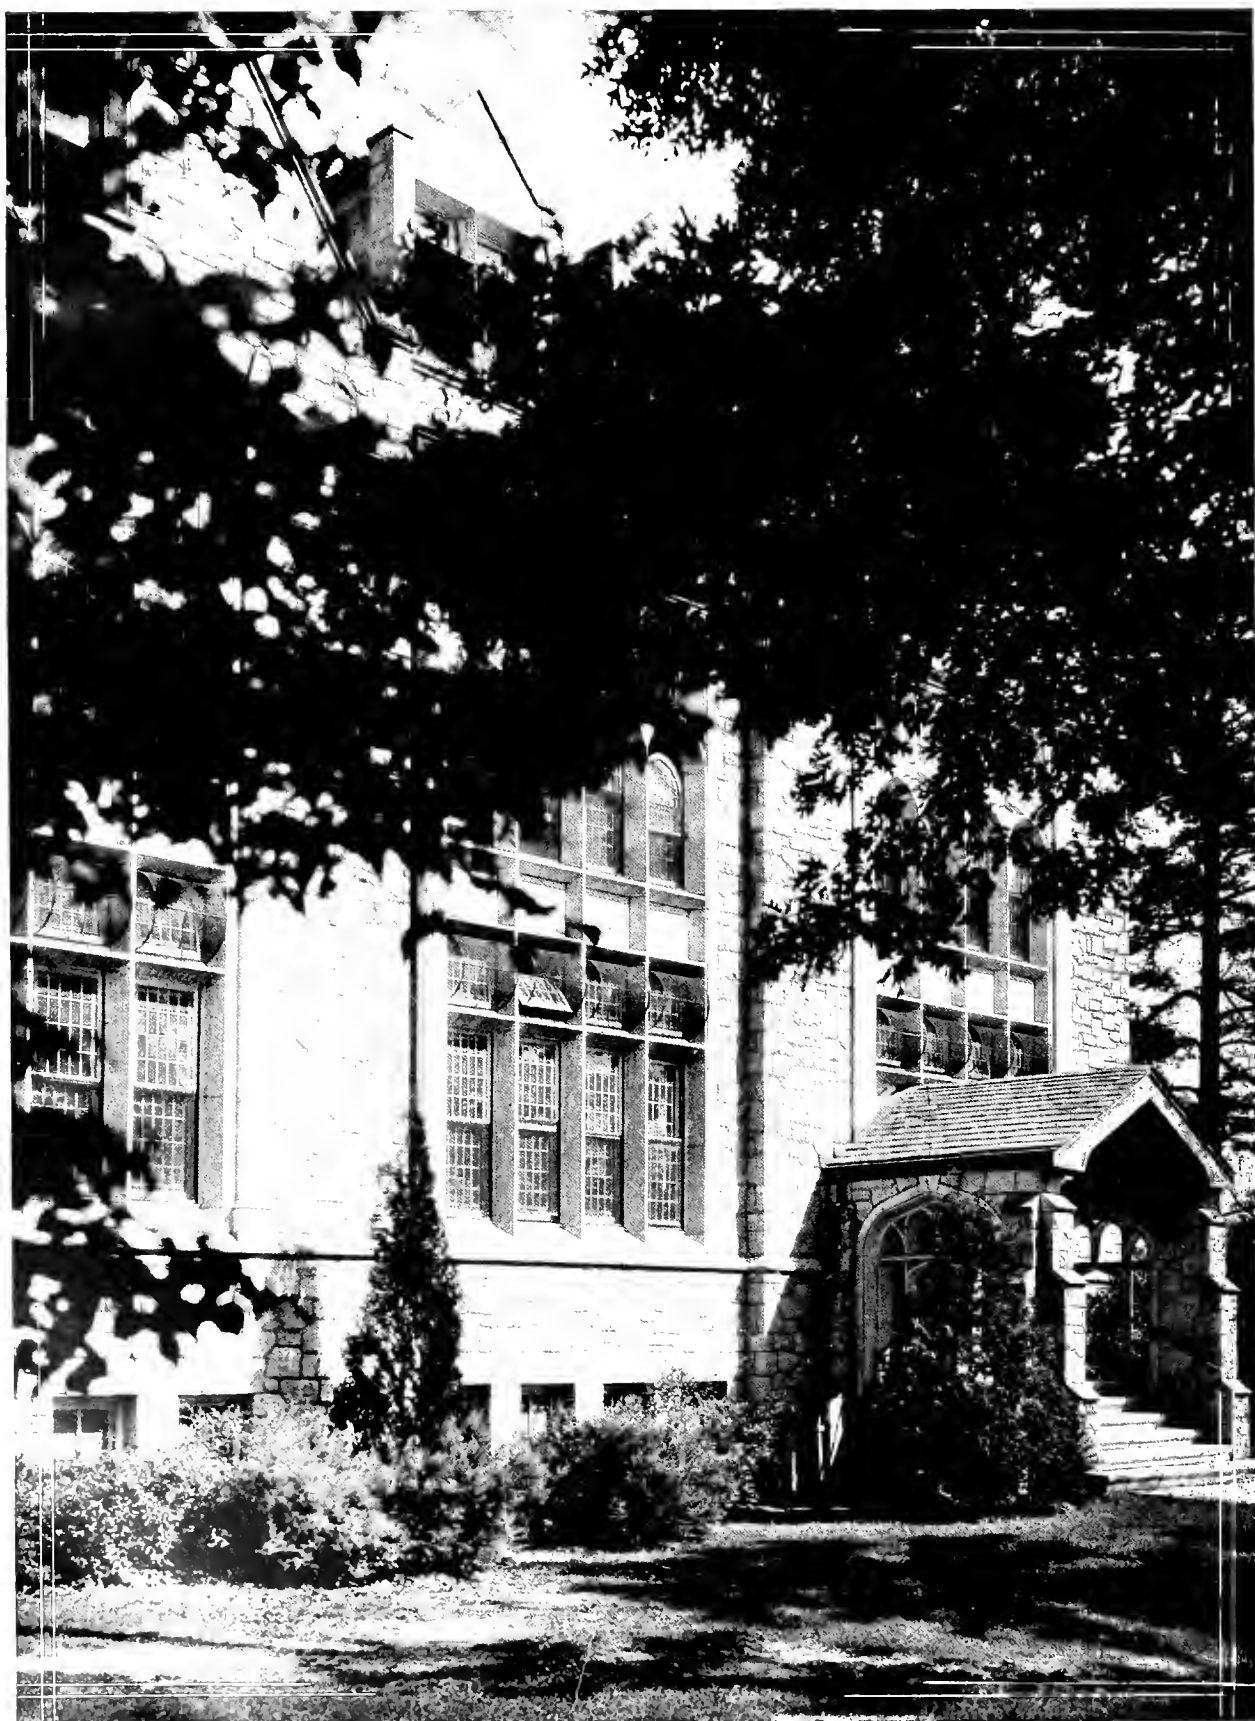

U C T I O N

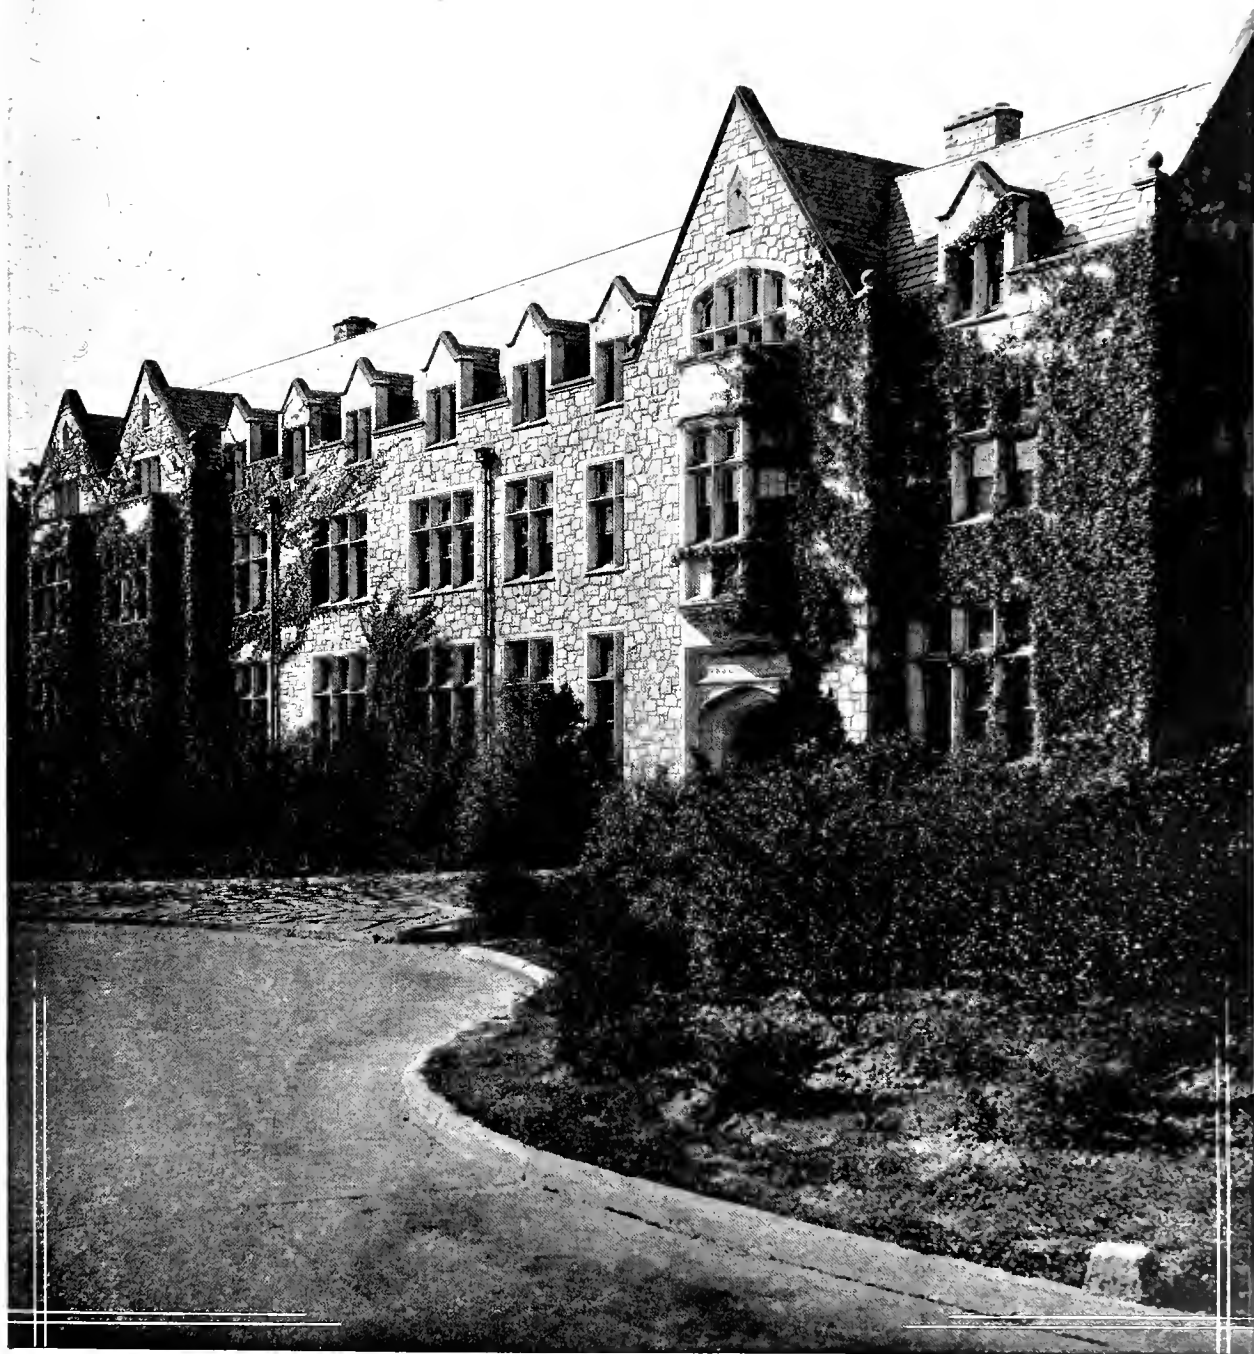

for worth while expansion of your character, and varied study courses that give real intellectual gain. All through the book are drawings which well depict our theme. As you turn the pages we hope that you will pause and consider the advancement that has been and is being made by higher educational institutions toward offering better courses and opening wider realms of knowledge.

OUR ANNUAL IS divided into seven sections: Campus scenes, President's message, Dean's message, Administration, Classes, Activities, Greeks and Sports. We hope that each division of the book will be of particular interest to you as a record of your days in college.

The Staff

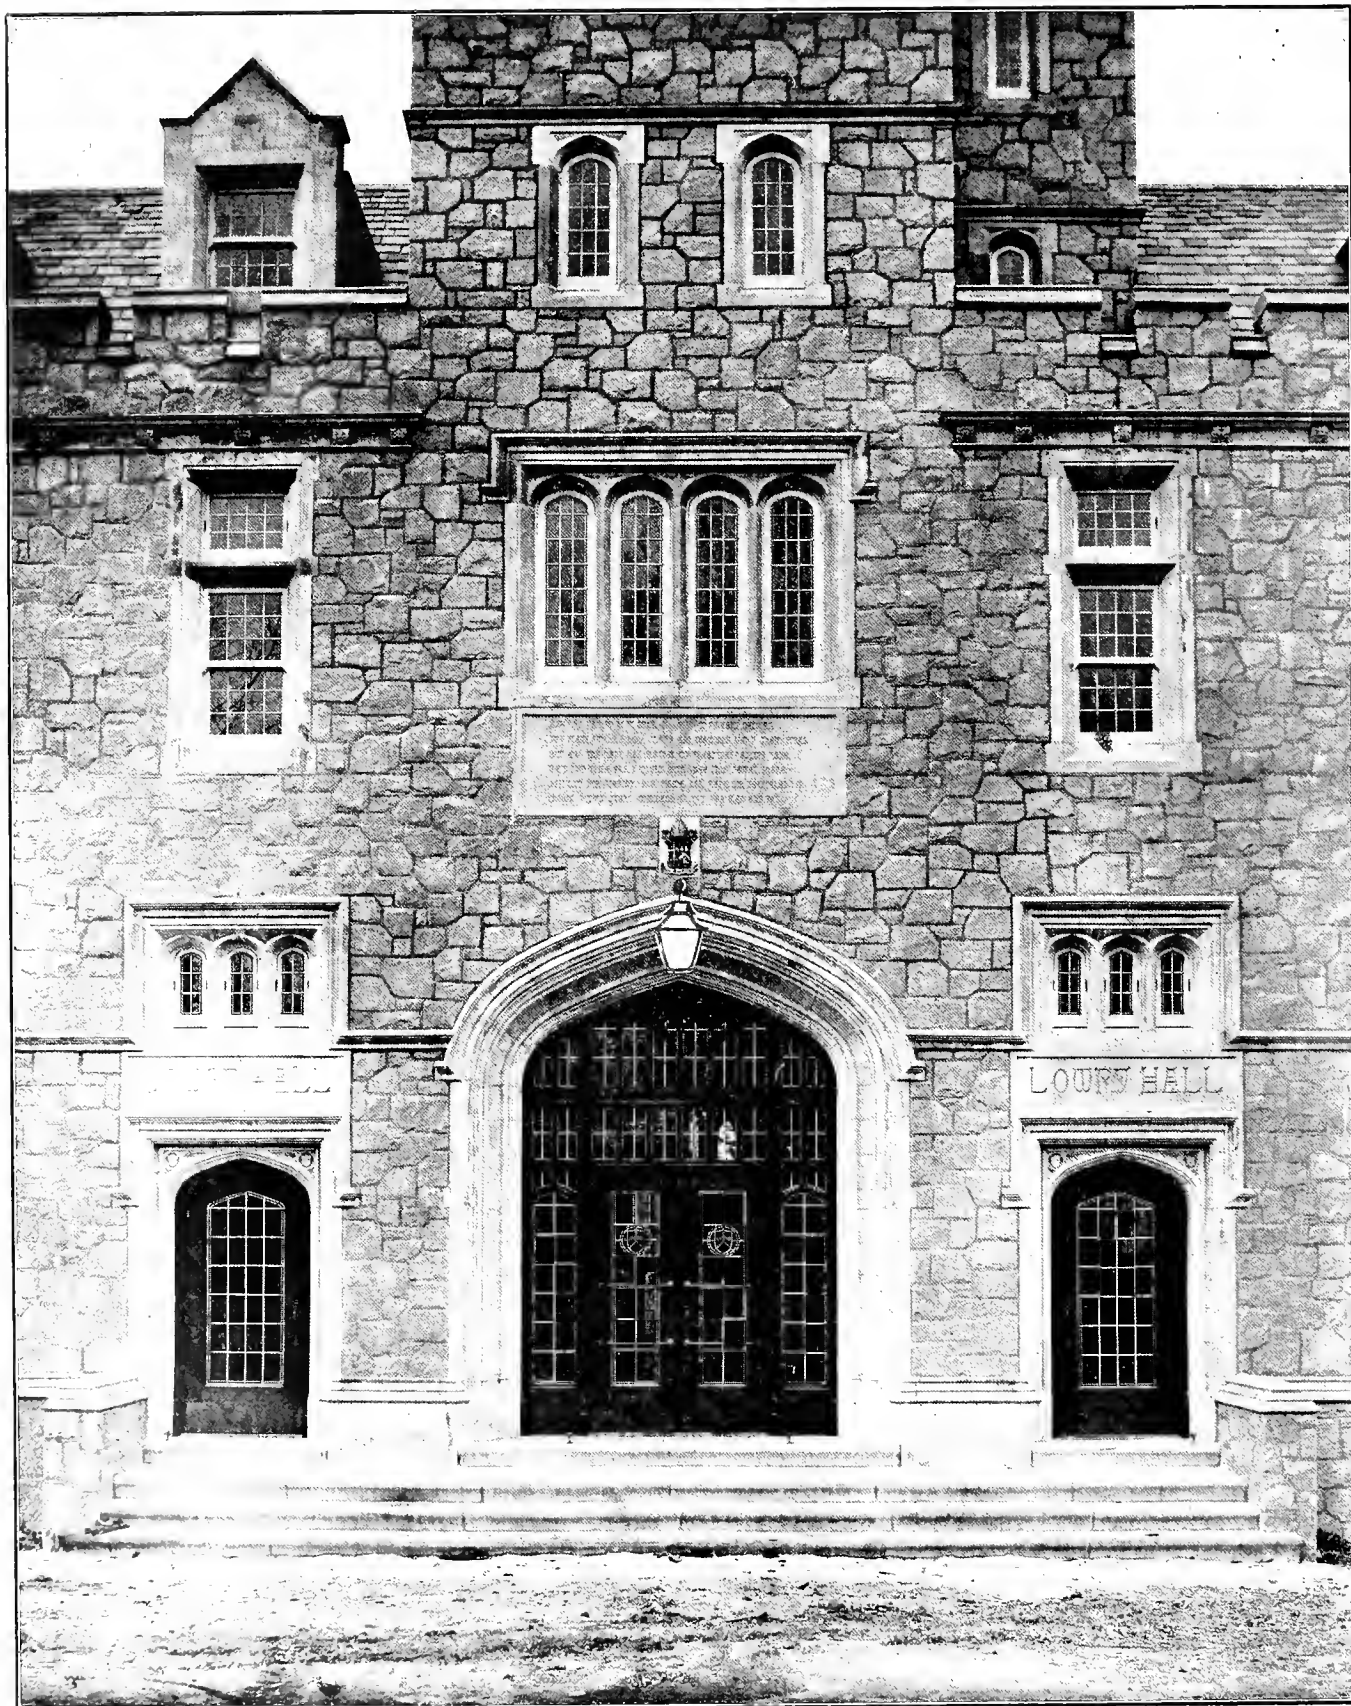

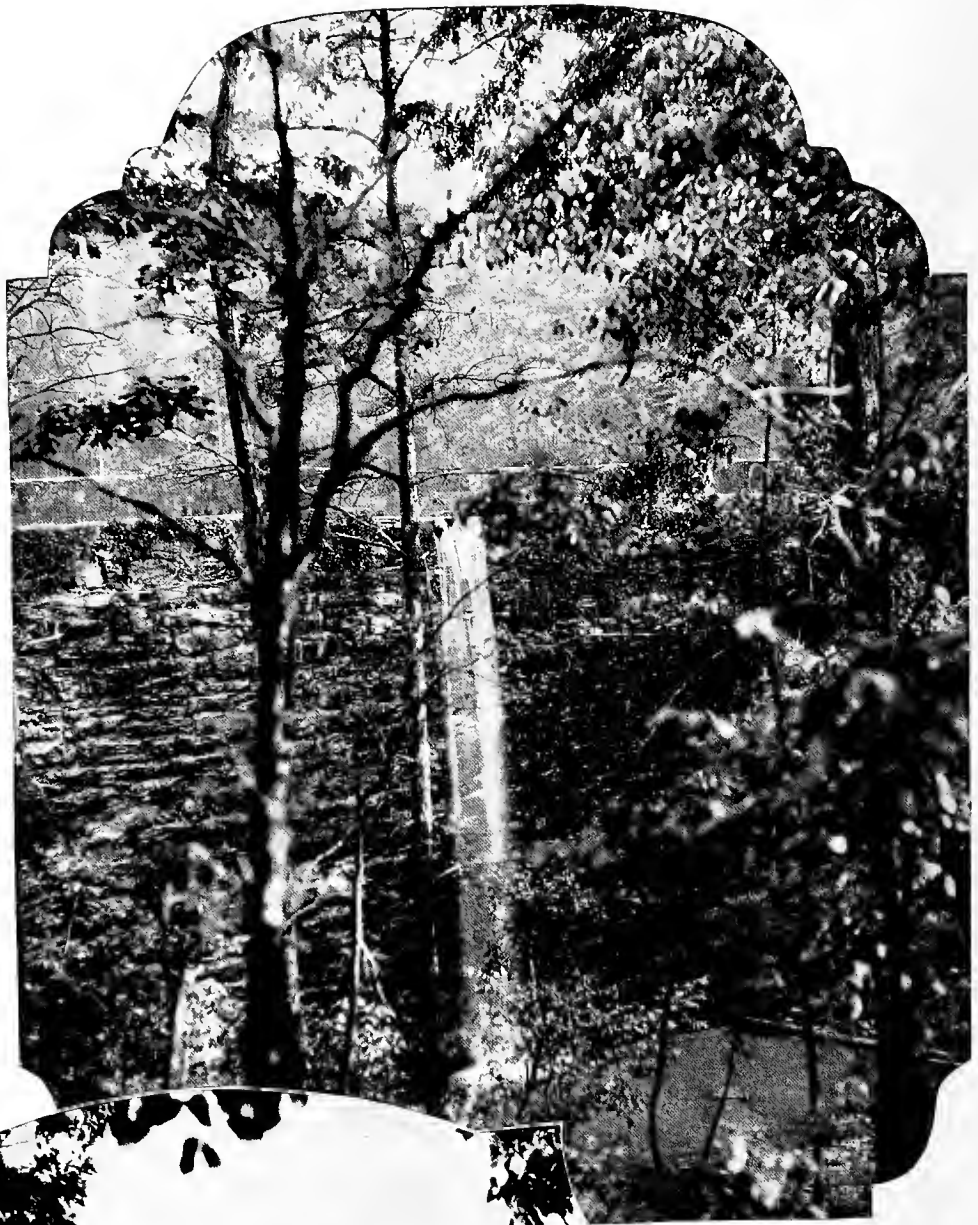

Edith
1931.1.3

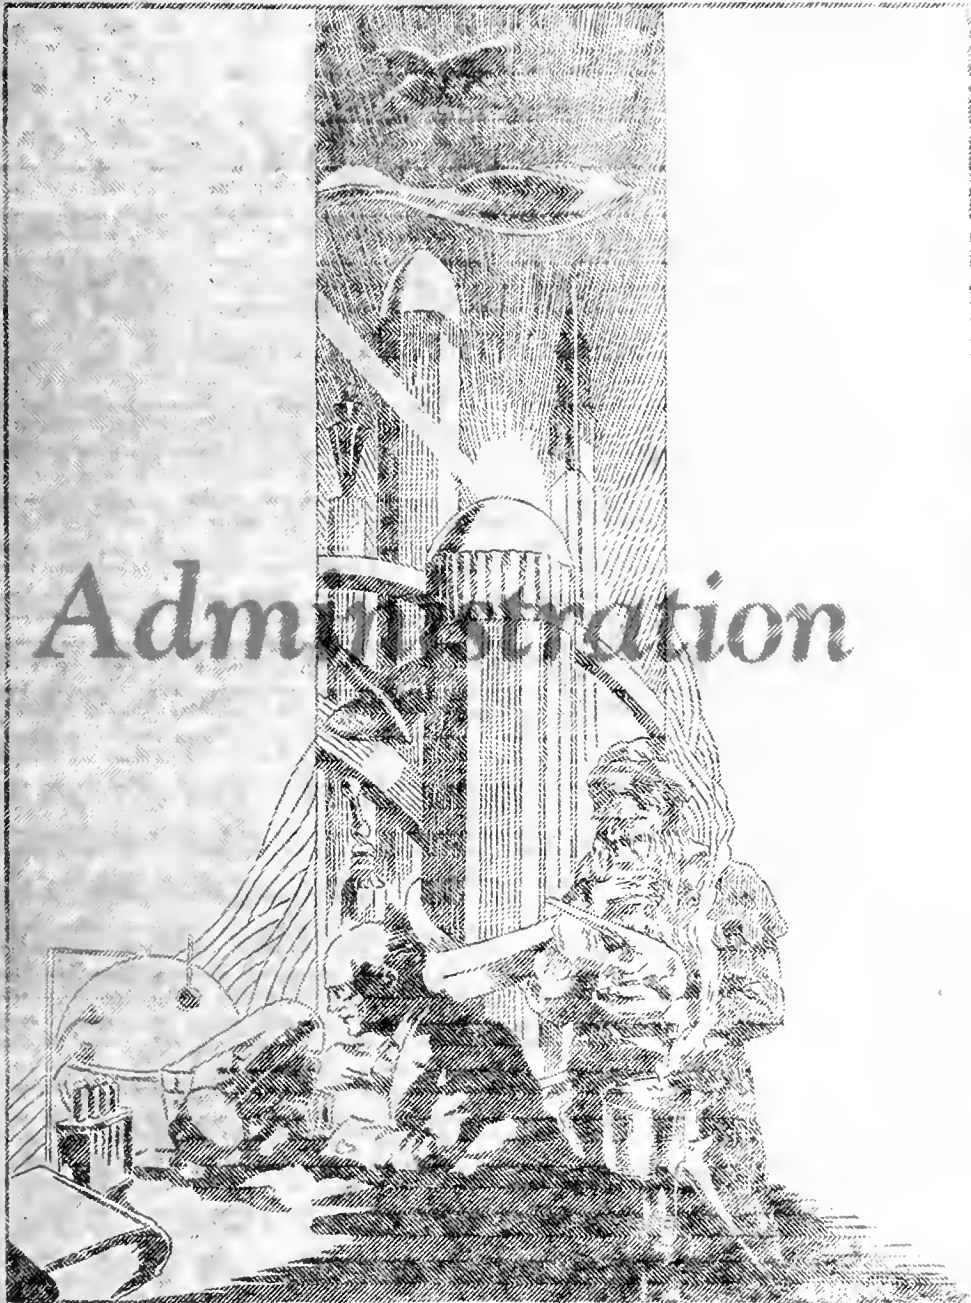

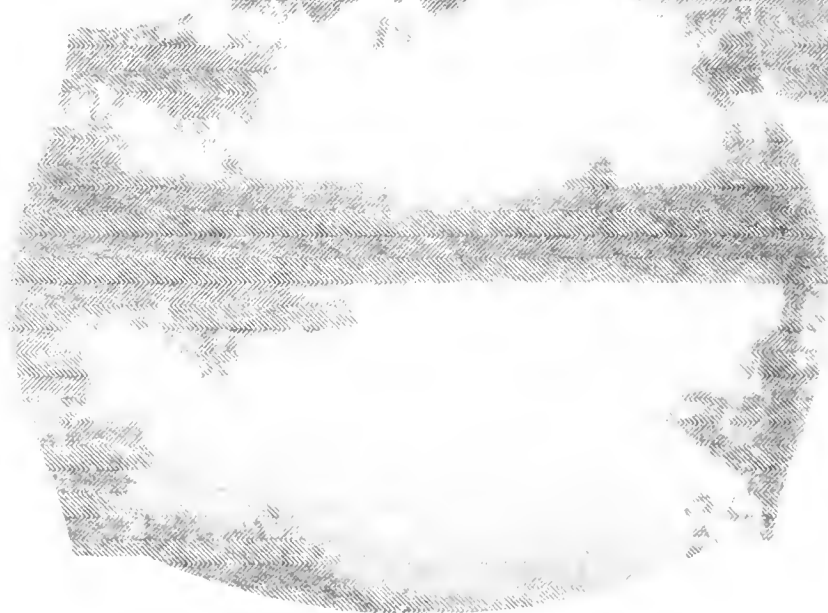

LUPTON HALL

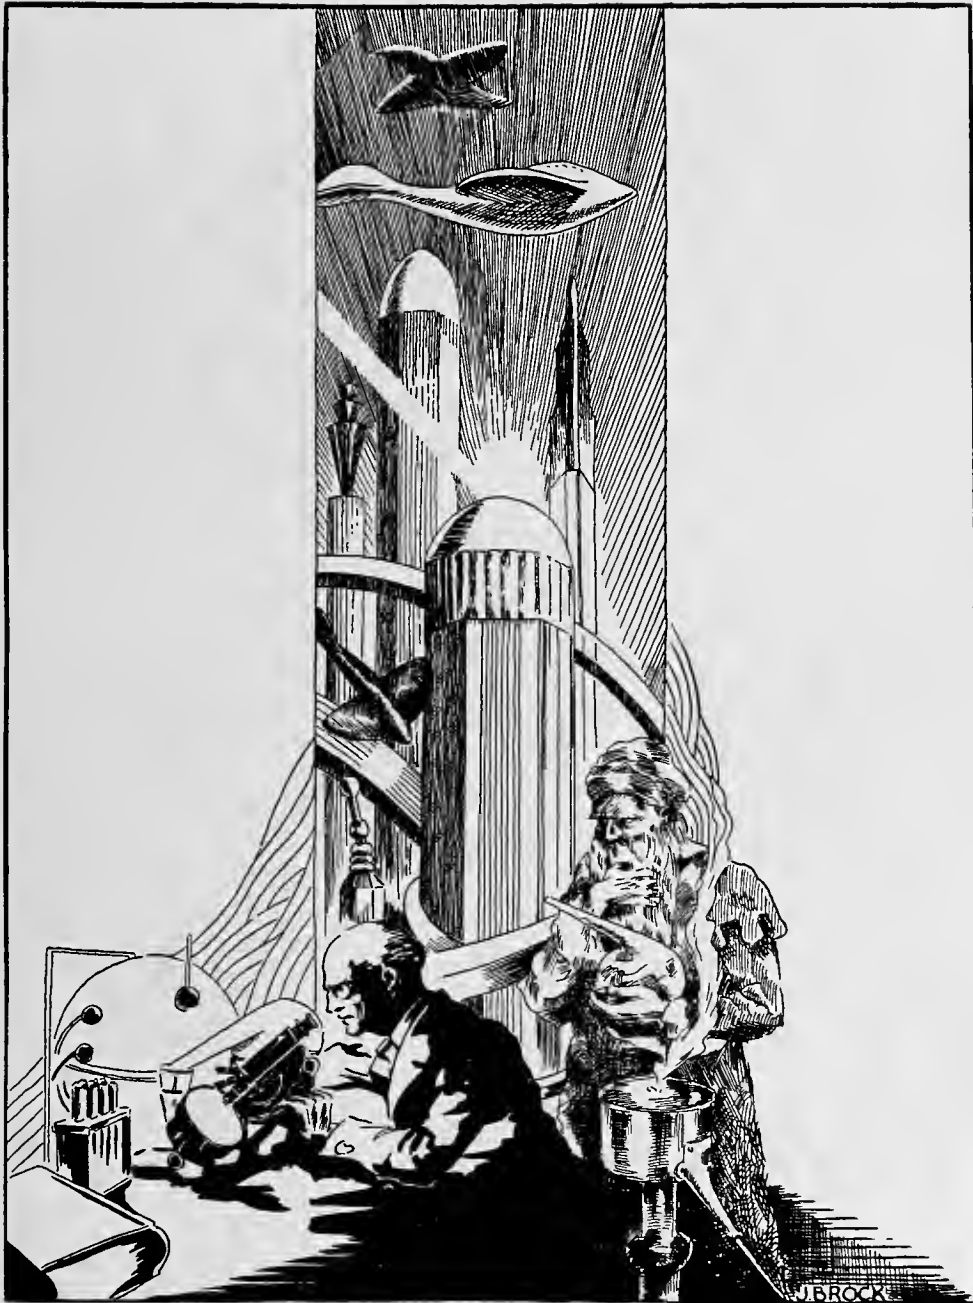

Till this I learned, that he who buildeth well
Is greater than the structure that he rears
And wiser he who learns, that Heaven hears
Than' all the wordy wisdoms tellers spell.

In Memory of

Dr. James F. Sellers

Dean of the School of Science
Dean of Oglethorpe University

Dr. H. G. Shaw

Dean of the School of Science

President's Message

IN ONE OF his inimitable odes, Horace describes the Ship of State: "Threatened by new billows which would bear her seaward again, with broken mast and shattered oars, driven before a great storm, her sails torn and her gods forsaken. 'Though thou dost boast of thy stock and useless name', he writes, 'yet the tired sailor puts no faith in gaudy sterns. Beware lest thou become the sport of the gale.'"

The world into which your Alma Mater has sent you is disturbed by conflicting currents and boisterous winds. A great storm is blowing. Not since the days of Napoleon has the earth known so much of sorrow, and crime, and bitter warfare of words and deeds.

It is for such an hour that universities are built and their graduates sent forth. In an age which has largely forsaken the ancient verities, put your sword at the service of the good, the true and the beautiful. If, at times, it is difficult to distinguish them, remember:

"A search is the thing he hath taught you,
For height and for depth and for wideness."

You will find no better motto by which to guide your destiny than that of your own institution:

"Good minds, good morals and good manners."

THORNWELL JACOBS.

Dean's Message

I WOULD LIKE to bid farewell to the class of '37 with the words of Benjamin Disraeli: "To be conscious that you are ignorant is a great step to knowledge." Always keep Disraeli's words in mind throughout life: Your education will not cease here, it will continue to grow. Be ever mindful to direct it in the proper channels, channels that will be productive to you and society as well. In entering upon your journey through life be ever mindful of ideals that your Alma Mater has taught you: GOOD MINDS, GOOD MORALS, AND GOOD MANNERS.

Select the type of work that you like best and put your best into your occupation. Thomas Jefferson once said, "that nothing is troublesome that we do willingly."

I would that each of you be ever mindful of your determination to succeed. I know that you will have many failures, heartaches, and regrets, but you must learn to profit by your mistakes. Build again and again upon each successive failure. Profit by the mistakes, not only of yourself, but by the mistakes of others that you may observe. Never give up: Couple your knowledge with a never-failing will and strong rugged determination. Have FAITH, FAITH, FAITH.

With best wishes to all,

JOHN W. PATRICK,

Acting Dean

JOHN A. ALDRICH

A.B., Albion College; M.S., University of Michigan; Ph.D., University of Michigan; Member of Society of Sigma Xi, of American Astronomical Society, of American Association of University Professors; Fellow of American Association for the Advancement of Science; Professor of Physics and Astronomy, Olivet College; Professor of Physics and Astronomy, Washburn College; Professor of Physics and Astronomy, Oglethorpe University; Acting Dean of the School of Science at Oglethorpe University.

Inter-Fraternity Council

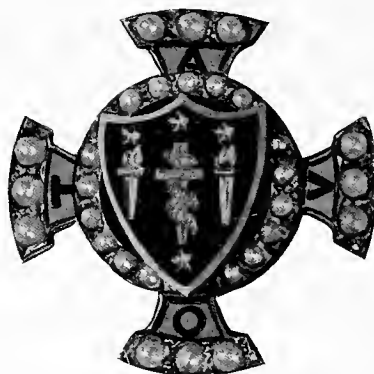

Shortly after the opening of the new school year 1935 the active members of the four fraternities on the campus—those interested in the development of close relationship—gathered and formulated plans for Oglethorpe's revised inter-fraternity council.

The purpose of the council, as stated in the constitution, leads to the creation of harmony and co-operation among the fraternities on the University's campus, and to regulate rushing on the campus.

Pan Hellenic Council

Sororities did not come to the campus of the University until 1920, only a few years after co-education became a part of the program of the University. It was in 1920 that a group of girls banded themselves together under the name of ZETA TAU Sorority, which in 1930 became the Alpha Chapter of KAPPA DELTA, leading the way to the founding of two successful organizations up to the present time.

Two years after the founding of Zeta Tau, another female organization, SIGMA ALPHA Sorority, was established. Another two years after its organization it became the Sigma Gamma Chapter of the National Sorority, CHI OMEGA. The Chapter was established in 1924.

The third and last sorority to come to the campus was PHI KAPPA ETA, a local which was organized in 1927. In 1930 it became the Chi Chapter of BETA ALPHA, a National Sorority.

One of the most harmonious movements of the three sororities took place when a PAN HELLENIC COUNCIL was organized for the promotion of close relationship. The council has been very active this year.

November	25	Oglethorpe vs	Citadel, Charleston, S. C.

Football

Upon review of the 1936 season it may be well said that Oglethorpe enjoyed a very successful year, although records show five defeats and only four victories. Few coaches would have performed the miracle of producing such a formidable eleven from the available material. Fate so had it that the fighting Petrels won every home game, so the Atlanta supporters were well pleased with the showing of their small, but mighty grid machine.

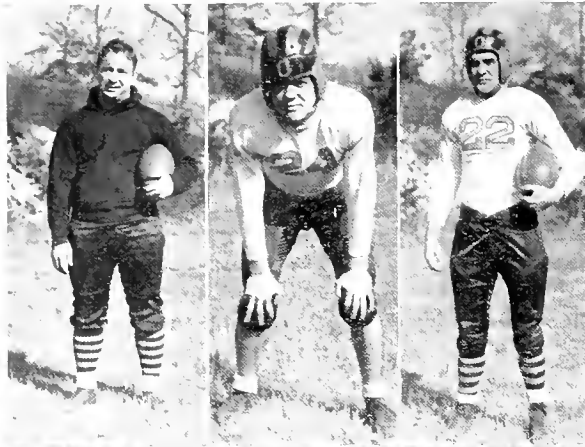

Coach Patrick assumed the role of a magician during the past football campaign and pulled four rabbits out of a seemingly empty hat. The Petrels stormed Newberry, Alabama State, Emory and Henry, and Erskine.

The season started with a decided lack of material, and when the injury jinx began to haunt Hermance Stadium the clouds of pessimism darkened the outlook considerably. The football wise eyes of our magician focussed on a scant handful of iron men, who were used almost without substitution throughout the year. It did not require a keen observer to notice that the lack of reserve strength was fatal to Oglethorpe gridiron aspiration. The Patrickmen led Chattanooga and Mercer in the early stanzas of their contest, but the bigger and heavier adversaries, with their superior reenforcements, wore down the fighting black and gold eventually winning the games. The Stormy Petrels, true to their namesake, *flew perpetually against advance winds*, facing reputable opponents, and constantly displaying heroic courage despite great handicaps.

The outlook for next season can hardly squeeze grunts of sheer joy from a hopeful coach as eight regulars are lost through graduation, and the light freshman squad will contribute but about three to next fall's varsity. Most teams run in cycles, and the next edition of Petrels is due to rank with the greatest teams of the region.

The seniors who have finished their careers on the gridiron are: Puryear, Clyburn, Neal, Horton, Rickard, Carson, Reynolds and Sullivan.

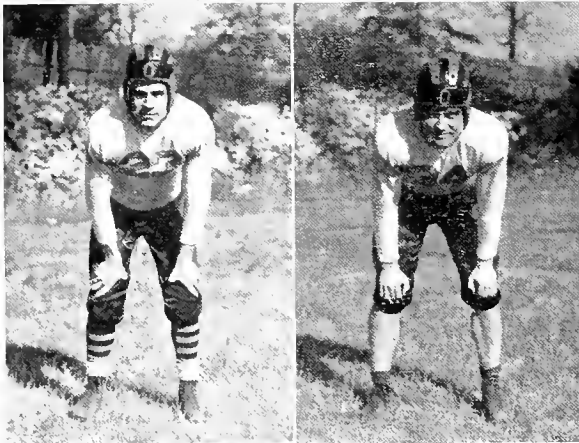

John W. Patrick, Head Coach

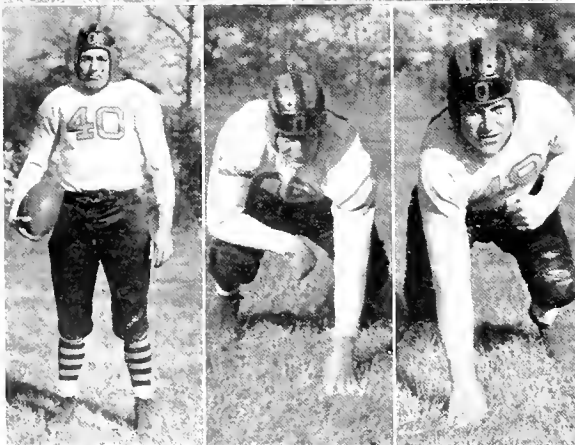

"Fox" Clyburn, Fullback, Alt. Capt.

Intramurals

Above is a picture of three of the four girls' intramural basket ball teams. Reading from left to right: the Beta Phi Alphas, the Ramblers, and the Kappa Deltas.

The purpose of the intramural athletics at Oglethorpe University is for the boys and girls who are not physically built for varsity athletics. These intramurals are offered so that the non-athletic students may receive the proper exercise that is needed. There are many sports offered such as follows: for the boys are volleyball, free throw, basketball, indoor-baseball, out-door baseball, tennis, track, and swimming. For the girls are volleyball, hit pin, free throw, basketball, ping pong, tennis, horse shoes, track, and swimming.

Oglethorpe University

IN TRADITION, AND IN ACHIEVEMENTS, PRESENTS SOME REMARKABLE FACTS

1. The proportion of the members of her faculty to be found in Who's Who in America is larger than that of any other college or university in the United States.
2. The cosmopolitan nature of her faculty is more marked than that of any "small college" in the United States, this faculty having been drawn from Maine to California.
3. The campus of the University is perhaps the most remarkable of any college in the south in that it embraces six hundred acres of woodland and meadow, including an eighty-acre lake.
4. The buildings of the University are beyond doubt the handsomest in the state of Georgia.
5. Oglethorpe University possesses the only known contemporary portraits of General James Edward Oglethorpe, the founder of Georgia, and one of Sir John Percival, President of the Board of Trustees which established the commonwealth.
6. Oglethorpe University is the only college for men in Georgia able to teach pure science and pure religion without interference of ecclesiastical or state and city politicians.
7. Oglethorpe University can at present boast that it is the only college or university in the state of class "A" standing, to be fully and legally inspected and accredited by the Board of Education of the State of Georgia.
8. Oglethorpe University is the first and at present the only university in the world to adapt radio broadcasting, fully and completely to the purpose of education.
9. Oglethorpe University is the only college for men in the State of Georgia which offers a complete course in Commercial and Fine Art.
10. Oglethorpe University is the only college or university in Georgia to possess a complete set of college chimes.
11. Oglethorpe University is the only college or university in the south and one of the few in America which owns and operates its own University Press.
12. Oglethorpe University has begun work on what is believed to be the only college granite stadium in the United States.
13. Oglethorpe University is believed to possess a role of honorary alumni whose standing and achievements are proportionately unequalled by any small college in the United States, including two presidents of the United States—Woodrow Wilson and Franklin Delano Roosevelt.
14. The history of the old Oglethorpe dates back to 1823. As a classical institution of learning her doors opened in 1835 and she was thus the oldest independent college or university between the Atlantic and Pacific oceans, south of the Virginia line. Such names as Sidney Lanier, Samuel K. Tadmadge, James Woodrow, Joseph LeConte, Joseph R. Wilson, B. M. Palmer and J. H. Thornwell are associated with her early history and make her memory glorious.
